Description

Windshield, commonly (though not exclusively) used for a wide range of ATV platforms and motorcycles with 7/8" handlebars. Extra wide 'full profile' base design for added comfort. Aerodynamic design, 3mm reinforced panel and adjustable mounting provide a significant layer of protection for all types of riders while creating minimal drag. Includes mounting components. Approximate dimensions 92cm x 51cm.

- Height: 51cm
- Width: 92cm
