Description

Axle wheel hub. Most popularly (though not exclusively) used for 50cc, 70cc, 90cc, 110cc and 125cc ATVs. Our complimentary axle and housing assembly is part number 70A4611, although this wheel hub is very universal and will work on many variations of axle length and formats with matching mounting profile. Approximate dimensions:

- Total Length: 37.9mm
- Bolt Stud Spacing: 78mm
- Bolt Stud Hole: 8.1mm
- Axle Shaft Diameter: 17.7mm
